

Talking *With* Not *At*

Real talks **DON'T** sound like talking **AT**

"You need to tell me if
you are having sex."

Real talks **DO** sound like talking **WITH**

"I know it can be uncomfortable
and at the same time it's
important for us to be able to talk
about anything, including sex."

"Don't watch porn."

"It can be hard to avoid porn, it
even pops up on your social
media. What can you do if this
happens?"

"Sexting will ruin your
life."

"What are some ways you could
respond if someone you cared
about asked you to send them a
picture or sexual message?"

"Why did you close
your iPad so fast?"

"It looks like you were watching
something that you don't want
me to see."

"We need to talk."

"I would like to talk with you
without any distractions. When
would be a good time today?"

Talking *With* Not *At*

Real talks **DON'T** sound like talking **AT**

"Don't text and drive."

"What would it take for you not to text while you are driving?"

"Don't have sex."

"Having sex is a big decision. I care about you and hope that you will wait."

"This should not be making you feel sad or stressed out. It is no big deal."

"It is hard to deal with everything you have going on right now. What do you need in order to feel less stressed?"

"Why are you fighting with Lisa?"

"Tell me what you think happened with Lisa."

"We need to talk."

"I would like to talk with you without any distractions. When would be a good time today?"
